THE EARTH MAMA DIFFERENCE

Earth Mama makes effective, natural herbal care for the whole journey of motherhood: pregnancy, postpartum, breastfeeding, baby care or even the loss of a baby.

From the positive test to the big push, from the first latch to the thousandth diaper, Earth Mama effectively supports the miraculous wonders and common indignities of motherhood with effective, natural herbal care.

Trusted by doctors, midwives, neonatal intensive care units, lactation consultants and mamas worldwide, Earth Mama combines generations of women's wisdom with traditional plant medicine to formulate certified organic herbal tea, soaps, balms, lotions, soothing sprays, and the first Non-GMO Project Verified nipple cream.

We've been safely nurturing mamas this way since 2002 — and we wouldn't do it any other way.

♥ MAMA'S PROMISE®

Mama's Promise is this: trusted herbal products that work, naturally. If it doesn't measure up to Mama's standards, it doesn't leave the building.
Promise. (Seriously!)
